- Remove badge only when belt is being cleaned.
- Removing and repining badge multiple times a day will cause it to break.
- Clean badge by washing with mild soap and water and immediately dry with a towel.
- Abrasive polishes should not be used to clean badges

### **Rain Poncho (optional item)**

- Hang poncho on wooden hanger with shoulders centered on hanger arms.
- Hang in a cool dry place away from direct sunlight and heat.
- Ensure the sleeves are straight.
- Do not cuff sleeves as they hold water and may cause cracking or mildew.
- To clean, wipe with a damp cloth only.

### **How to Fold the AAA School Safety Patrol Belt**

1. Lay patrol belt on a flat surface and match waist and shoulder sections at front and back.

2. Fold the right side of the waist portion under the belt.

3. Fold the left side of the waist portion under the belt.

4. Wrap the shoulder portion of the belt around the waist section until folded completely. Secure with a rubber band.
