

AAA School Safety Patrol

LIFESAVING MEDAL

Deadline for Nominations:

Friday April 10, 2020

A proud tradition for 100 years, the AAA School Safety Patrol program now includes more than 679,000 Patrollers in 35,000 U.S. schools! Students who give their time and energy to make the AAA School Safety Patrol a success are encouraged and supported by school officials, parent-teacher groups, law enforcement and AAA Clubs.

The Lifesaving Medal

The AAA School Safety Patrol Lifesaving Medal is the highest award given to a Patroller. Recipients are select Patrollers who, while on duty, have saved the life of a person in imminent danger.

AAA initiated the program to recognize Patrollers for heroic lifesaving acts. Since the Lifesaving Medal's inception in 1949, 436 boys and girls have received the award.

A panel of representatives from the AAA National Office and the safety community will select deserving medal recipients from the nominated candidates.

Recommendation Qualifications

The Lifesaving Medal honors a member of any authorized AAA School Safety Patrol when there is conclusive proof that:

- The life of the person saved was in imminent danger.
- The act was performed while the Patroller was on authorized duty, going to or from a duty post, or while on duty as a Bus Patrol member. (NOTE: If the Patroller's duty or location is different than recommended in the AAA School Safety Patrol Operations Manual, the documentation should include local instructions to this effect).
- No negligence on the part of the Patroller caused or contributed to the person rescued being placed in the situation where his or her life was endangered.
- The act occurred from January 2019 to April 2020.

Recommendation Procedures

There are no restrictions on who may recommend a Patroller for a Lifesaving Medal. Anyone who sees or has reliable information on a Patroller performing a lifesaving act may do so. The program Advisor is responsible for approving the initial recommendation and should investigate all circumstances surrounding the act. The recommendation process has four steps:

1. Complete the official Recommendation Form.
2. Gather supporting material.
3. Diagram the lifesaving incident.
4. Submit all material to [Rachel Andress](#) by **Friday, April 10, 2020.**

Important!

The more detail you can provide in the application packet, the better. Please be sure all sections are filled out completely, and all supporting documentation is included with your submission.

Item 1: Recommendation Form

The Recommendation Form is used to review the case. It must be filled out neatly, accurately and completely. The more detailed the information, the better.

Item 2: Supporting Material

Supporting documentation must substantiate and clarify the act described on the Recommendation Form. When possible, include:

- Descriptive signed statement from the witness or witnesses
- Descriptive statements from:
 - The operator of the vehicle(s) involved in the incident
 - The person(s) rescued
 - The nominee
- Letter from the school principal, a teacher or the Patrol Advisor indicating:
 - Whether the Patroller was on duty at his or her specific station
 - Where other Patrollers on duty were stationed
 - What other Patrollers on duty were doing
- Photographs and/or video of the scene
- Police report(s) if the incident was investigated
- Media articles and pictures pertaining to the incident

Item 3: Diagram

A clear, accurate diagram on an unlined sheet of paper at least 8½" x 11" in size must depict the circumstances surrounding the entire lifesaving sequence (see sample diagram on page 3). You may draw your own or use the blank diagram on page 7. Photos of the school zone, Patroller and other details also are helpful. When possible, the diagram should:

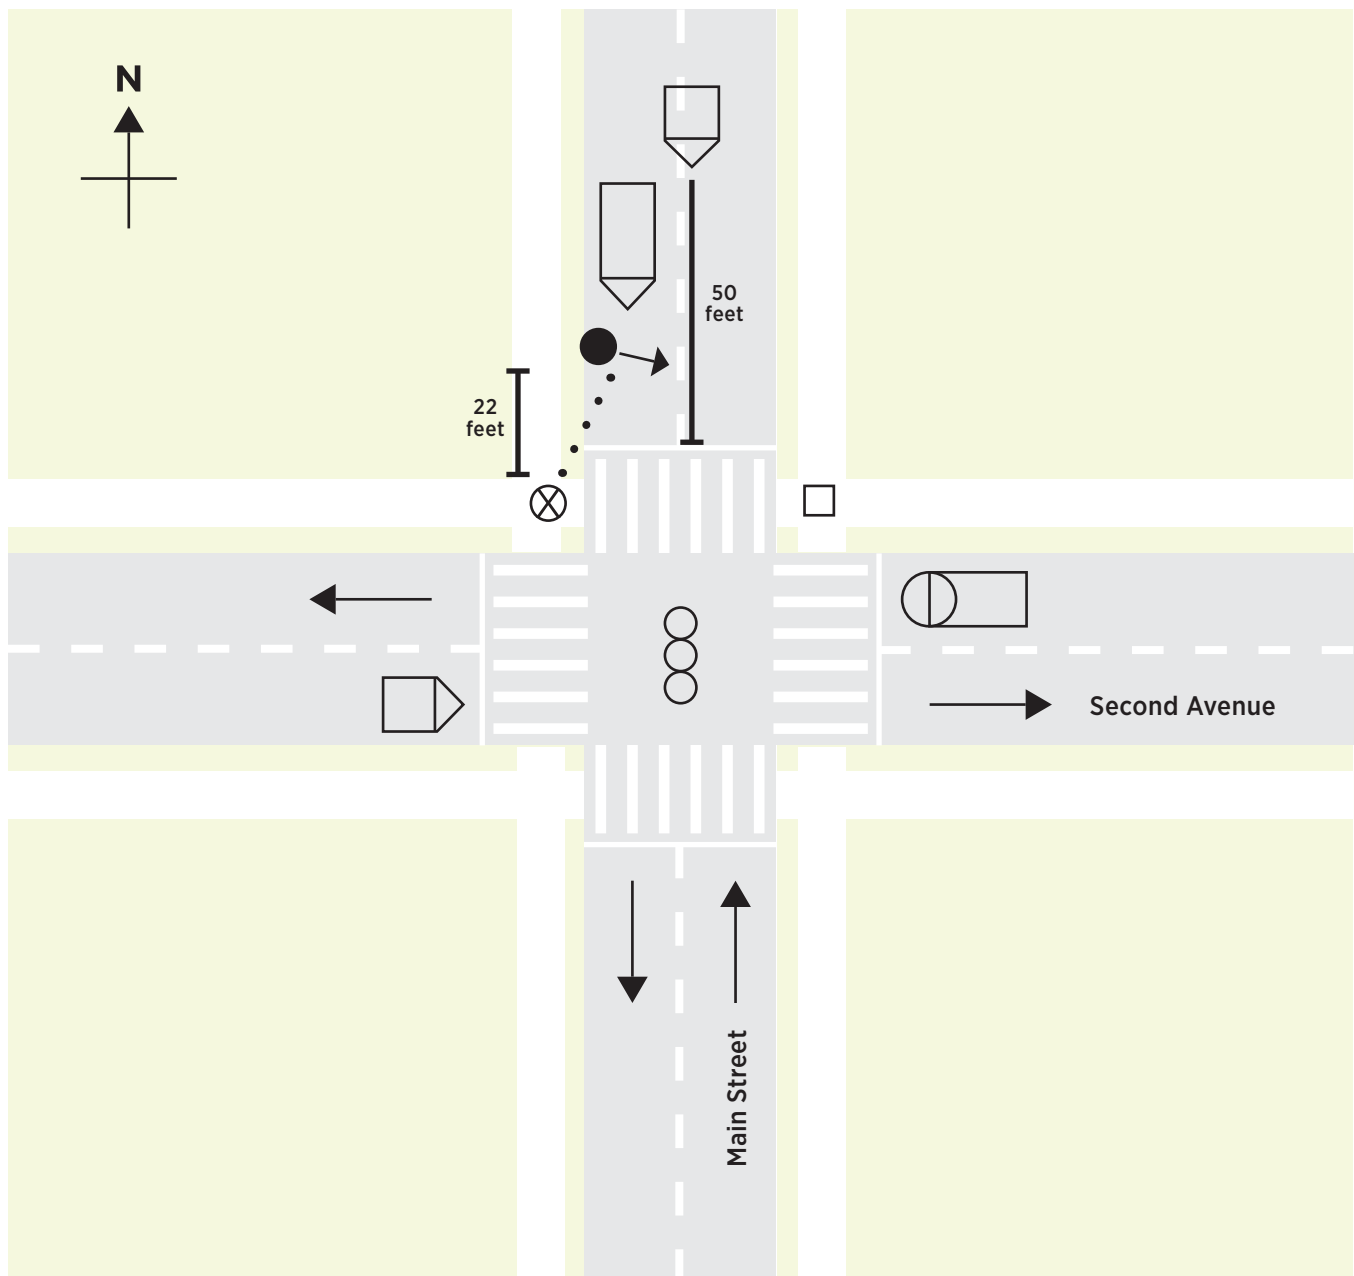

- Use solid lines to outline the roadway, sidewalks and nearby vicinity at the scene of the incident
- Indicate obstructions, such as parked cars, trucks, trees or buildings, that blocked the views of the Patroller, vehicle driver or pedestrian
- Mark the locations of the person(s) and vehicle(s) involved at the moment the Patroller realized the danger
- Use solid lines to show the paths of the endangered person(s) and vehicle(s) before the Patroller acted
- Use dotted lines to show the paths of the Patroller, rescued person(s) and vehicle(s) after the Patroller initiated action
- Indicate the direction and estimated speed of the vehicle(s) involved
- Indicate the location of traffic signs, signals, crosswalks, police officers, witnesses and others involved
- Show relevant distances, street widths and roadway directions (i.e., one- or two-way)

Item 4: Submitting Recommendations

- Lifesaving acts performed during the current school year are eligible for consideration.
- The deadline to submit recommendations is **Friday, April 10, 2020**
- Recommendations should be submitted as soon as possible so that necessary documentation can be obtained while the information is still fresh.
- If the lifesaving incident takes place after the submission deadline or close enough to it that documentation cannot be compiled in time, the case will be considered for the following year. If a delay occurs due to another cause, please explain fully.
